

Instalar redis-docker

```
docker run --name redis -p 6379:6379 -d redis
```

```
# dentro del contenedor configurar password
```

```
#para entrar al contenedor
```

```
docker exec -ti redis /bin/bash
```

```
# luego
```

```
redis-cli
```

```
CONFIG SET requirepass "yourpassword"
```

```
AUTH yourpassword
```
