

Install Oh My Posh

```
# https://ohmyposh.dev/docs/installation/windows

# Open PowerShell with Run as Administrator.
Set-ExecutionPolicy -ExecutionPolicy RemoteSigned

winget install JanDeDobbeleer.OhMyPosh --source winget --scope user --force

# Create Documents\WindowsPowerShell\Microsoft.PowerShell_profile.ps1
New-Item -Path $PROFILE -Type File -Force

notepad $PROFILE

# Insert this into the file
oh-my-posh init pwsh --config "$env:POSH_THEMES_PATH/robbyrussell.omp.json" | Invoke-Expression
```

Linux

```
sudo apt-get install zsh

# oh-my-zsh
wget https://github.com/robbyrussell/oh-my-zsh/raw/master/tools/install.sh -O - | zsh

# zsh por defecto
chsh -s `which zsh`

# reiniciar terminal
```
